

# ENCLOSED SPACE

## Think before you enter

Sufficient ventilation  
prior to entry by  
mechanical or  
natural means

Check the space atmosphere for  
oxygen, flammable gas, carbon dioxide  
and toxic gases

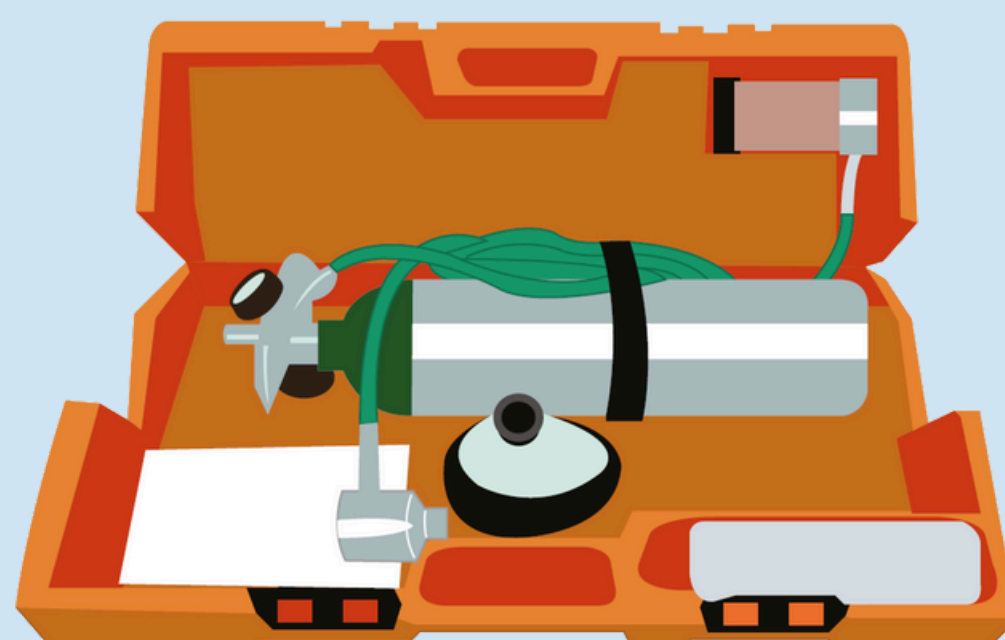

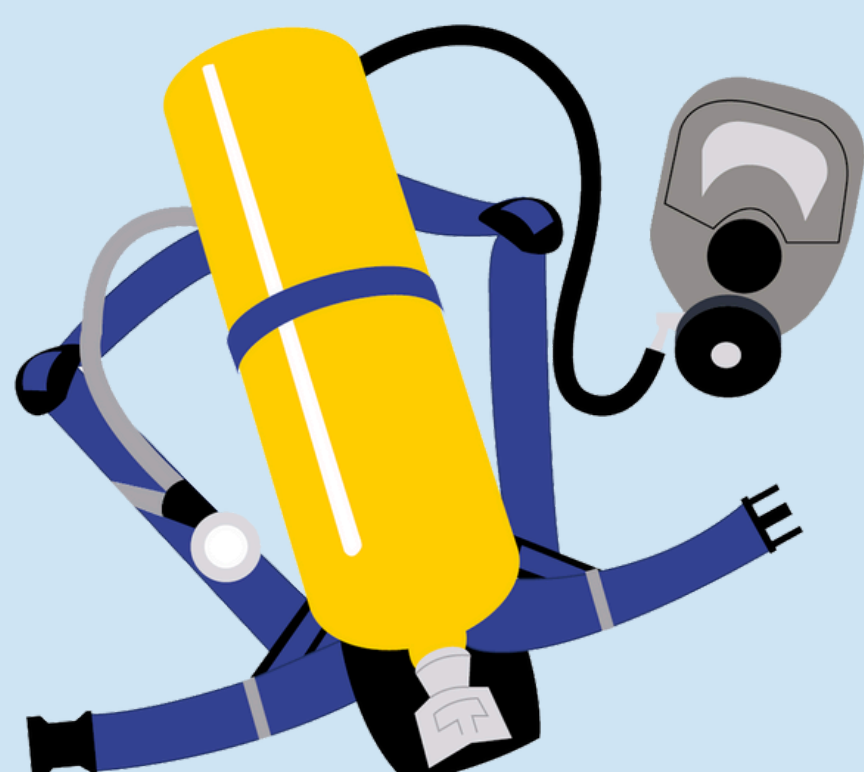

Follow and display  
enclosed space entry  
checklist and other work  
permits, as necessary

An attendant to be stationed  
at the entrance of the  
enclosed space

Rescue equipment  
ready for  
immediate use

### Personal Safety Equipment
